

The Magnetic Times Table - Fundraiser

Dear Parents and Caregivers

It's natural to want to give our children the best education we can. This product is designed to help children learn the times table, understand how the times table works and why. The times table remains **the** most important building block for success at maths in later years. Your fridge is visited at least 20 times a day. **20 visits X 365 days = 7300** times a year. What a great place to learn the **Times Table**.

Colour coded into 144 pieces it can be transformed into a puzzle or left in the table format. Buy two and have an educational magnet and a puzzle for only \$12.00. Bellevue school will receive money for every order, making it a fun and educational way to raise funds.

The magnet is \$6.00 (with \$2-\$3 per magnet going to Bellevue school).

Orders are due by 3pm Friday 17th June. Please send your order to your child's class.
