With the limited capacity in our hall, we have consistently received feedback that students have more space to enjoy the disco when parents do not remain in the space with them. To provide an opportunity for our families to connect informally Rooms 2 and 3 will be open for whānau who wish to wait for their child/ren. Tea and coffee will be available.

Cellphones

As this is a school event, cell phones will not be allowed inside the disco. If your student is bringing a cell phone please ask them to hand it into their whānau teacher. This will ensure property is kept safe and prevent the taking of unwanted photos.

Photos

There will be a photo booth set up inside the disco. Students who want to have their photo taken are welcomed to! Teachers will also be roaming to capture some magical moments. While every effort will be taken to ensure all students who want to be photographed are, some students may not have their photo taken. If you want a photo, please encourage your child/ren to go to the photo booth and/or speak to a teacher with a camera. If you are having a photograph with your child, please move out of the hall quickly after you have finished.
